

## **Morning prayers for the working woman**

Sweet Jesus,

It must have been tough being a carpenter. I just pray to you to be with me today, facing some difficult tasks at work. Ease my tensions, clear my brain and direct the traffic in my favour, so that I am not late at the office. Oh Lord it is so great to know that you are with me always-and in all ways thank you. Amen.

Dear Lord and Heaven Father,

Thank you for a good night- I feel rested and ready for events of the day. Thank you for sunshine and good weather- help me rush through the chores of the morning with the children. God bless their day Lord. In your gracious strength be with my husband and children through this day- protect us, guard and guide us to do your will, to be your hands and feet for those around us. Amen.

Dear Father God,

I am harassed this morning, tired and grouchy. Grant me the strength to be a really kind and loving Mum and wife, and a strong help at the office. And Lord- please protect and bless my husband and the children. And another big please Lord-keep me sweet and even-tempered and uplift me through this grey depression. I thank you. Amen.
